

Registration Form

GET http://localhost:4401/

Registration Form

Enter your name and email address to register.

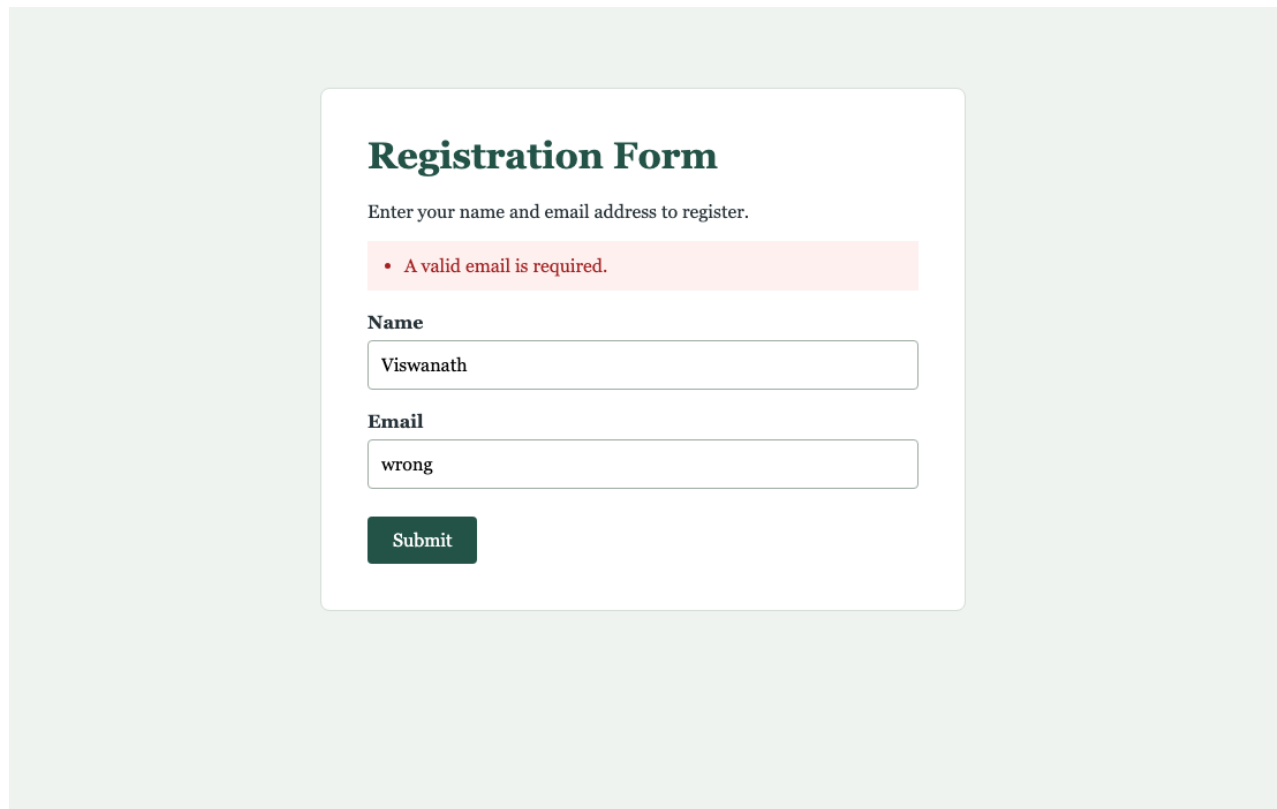

Name

Email

Submit

Validation Error

POST request with an invalid email. The entered name remains in the form.

The image shows a registration form titled "Registration Form" with a subtitle "Enter your name and email address to register." Below the subtitle is a red error message: "• A valid email is required." The form has two input fields: "Name" with the value "Viswanath" and "Email" with the value "wrong". A "Submit" button is located at the bottom of the form.

Registration Form

Enter your name and email address to register.

- A valid email is required.

Name

Viswanath

Email

wrong

Submit

Successful Registration

POST request with a valid name and email address.

Thanks for registering

Thank you, Viswanath Puppala. Your registration was successful.
